Awast on the body of an unknows ich was found in the dock at the of Long-Whart, yesterday. He was 5 feet and 6 inches high, rather stout, of had the appearance of having been in the water from three to five days; he had black hair, and was bald on the top of the head. He had on a black frock coat, satin vest and green checked pants, and had the appearance of being a foreigner, about 40 years of age. There was a severe contusion on the right eye, as if he had been struck a heavy blow, but the skull was not fractured. The body was carefully examined by Dr. W. Argyle Watson, and he thinks that the man was probably knocked overboard. Two unives, 96 cents in money and a pipe were found in his pockets. There were no marks about his clothing to indicate his name or residence. The verdict of the Jury was in accordance with the facts.

IF Miss Eliza Hensler, the American Prima Domes, will give a Matinee Musicale at the Ocean House next Monday morning. She is young and very handsome, and a highly accomplished vocalist. She has passed some years in Italy, where she has received instruction from the best masters; she sing at several Concerts in Europe, and drew forth from the best judges the strongest approbation. She was compelled to return to this country sconer than she intended in consequence of the sickness of her father. She will be assisted at her Made or by Brignoli, Bogmann, Schultze and several other eminent artistes. We hope to see the Hall growded, and are sure that all will be delighted with him extraordinary voice and its exceedingly high

Among the arrivals at the Atlantic House we notice the celebrated Rev. Dr. Achilli.

EF Professor Bristow will only remain in the city this month; therefore, those who wish to receive instruction in Penmanship must make immediate application.

To We are happy to hear that the Rev. Dr. Achilli has arrived at Newport, where it is probable he will spend a few days; and, should a suitable opportunity occur, he may address our citizens on the Pelitical and Religious condition of Italy,

Dr. Achilli was formerly a dignitory in the Catholic church.

He was at first among the Dominicans was view of the Master of Sacred Palace, when he was appointed Professor of The ology in the Minerva College at Rome.

About thirteen pears ago he was compelled from conscientous motives to leave the Papal church, when he suffered much from the Inquisition.

Dr. Achilli has not attached himself to either of the Protestant denominations, but is highly recommended by eminent ministers, especially by those belonging to the

Episcopal and Presbyterian church. He is now engaged in preparing a new translation of the scripture in the Italian language; the New Testament has already been published, and the Old Testament is nearly if not quite ready for the press.

In Dr. Achill's lecture we understand that there is no attack on individuals, nor sweeping charges against any particular church; the Jesuita and the Inquisition are fairly exposed.

London has 100 firemen: New York 000. In the former place they are paid by the city; and in the latter they are voluntary. The rates of insurance are five times as much in New York as in London. Here is food for reflection.

The anniversary of the capture of the city of Mexico will be celebrated by the officers engaged in it, at the Astor House, on the 14th of September.

Dr. John C. Calhoon, third son of the late Hon. J. C. Cathous, died on the 241 ultime in Winnsboro', South Caroline where he had recently arrived from Florid ufflicted with consumption. His remain were conveyed to Fort Hill for sepulture.

THE OCEAN LINES.-The New York Newfoundland and London Telegraph benefit in the with a party of execurtionists to the at ten of with a party or executive and seventy, get off this morning at tensel of the clock in the James Adger Spofford & Charleston 125c, one of the Tileston's Charleston 1281e, one or the finest steamers the leaves this port. The party was in mirrable spirits, and went off

anticioning's fine time.

It will be somewhered that they were to have suited in the Calhoun; but on the day of salling a militarioal mercher of the company learned that the boilers of that boat were plugged to a considerable extent, and not being willing to even risk an accident of any kind, he obtained a postponement. The purpose of this trip is to lay the submarine telegraph, cable between St. Johns, Newfoundland, and the main land. In a fow weeks New York will be in instant communication with one of the furtherest points of the American coast. The steamer will proceed to Halifax, Prince Edwards, and St. Johns, N. F. After laying the cable, which will occupy about two days: the party will cruise along the coast of New Foundland. The trip is expected to be very interesting, and will probably occupy three weeks or a month.-N. Y. Ex-

Four weeks ago an elderly and respectably dressed gentleman was found lying senseless upon the sidewalk in Cincinnati. A crowd soon gathered, some of whem said he had a fit, while others said he wis drunk. Al little girl apparently twelve years of age, emerged from the crowd raised the failen man's head into her lap and then used some means whereby he was so far revived as to be able to call for water, a coach, and request that the little girl might accompany him home. He proved to be a retired merchant, and his prostration a case of paralysis, while the juvenile Samuritan who contributed to his relief was the daughter of a poor widow -He has so far recovered that on Monday last he rode to the residence of the mother of the child, and presenting her with a check for \$200, hang a handsome gold chain around the neck of his little ministering angel, on which was suspended a plain but costly gold watch, upon the case of which was the following inscription :--"Presented to Mary Cordelia Perkins by har friend William Brothers."

OPERATIONS OF THE UNITED STATES MINT.-The operations of the Mint at Philadelphia for the month of July were quite small. The deposites of gold were \$221,330 and of silver bullion \$436,000, making the entire deposites of the menth \$657,330. The gold coinage, wholly in double eagles and gold dollars, amounted to only \$280,380; the allver coinage, wholly in quarter dollars, was only \$156,000 ---The total number of pieces coined during the month was 699,788, if the value of \$436,380. This is an unusually light business. It is proper to remark, however, that the coinage operations were suspended on the 21st ultimo, preparatory to the commencement of the alterations necessary to make the mint building fire-proof.

THE OCEAN TELEGRAPH.—The steam boat James Adger, one of the finest and most sea-worthy steamships belonging to New York, has been chartered to take a party from New York to Newfoundland and Capo Breton. She also takes the wires of the sub-marine telegraph which is to be laid down across the Guif of St. Lawrence to Newfoundland. This is the first link in the great oceanic telegraph line which i s to connect America; with Europe.

Holloway's Ointment and Pills, extraordinary Remedies for the Cure of Erysipelas.-Charles Pairpoint, was afflicted for several years with this disease. For nine months he was almost deaf and blind with it, so severa was the attack, he consulted several of the doctors in the neighborhood, but they did not do him any good, but to use his own words, he was left alone to die. His good genius, however did not desert him, for a friend of his brought him from a ten, prefers stage travelling to raila couple of large boxes and pots of Hollo- | roads. The former, he says, rides bim way's Pills and Ointment, which he thankfully accepted, and commenced using; the result was perfectly miraculous, for in two weeks he was able to get up, and could see and hear, well; at the expiration of a meath he was perfectly cured, and able to resume his work.

licket was 1,400 ahead. All the nows

from the different parts of the State is

avorable to the K. N's., but the election is

till uncertain. A riot has commenced in Ky., Aug. 6 .- At noon to-day the K. N., Ticket was 1,400 ahead. All the news from the different parts of the State is favorable to the K. N's., but the election is still uncertain. A not has commenced in the first ward.

Eight o'clock, p. m .- The majority for the American ticket in this city is 1660. Rioting is going on in the first and eighth wards. Several have been killed and many are wounded. Two blocks of buildings have been fired and are still burning .--The most intense excitement prevails, and there will probably be more fighting. The Irish fired from windows and killed three Americans. One Irishman hung by Americans; several were killed and others taken Prisoners.

Nine o'clock, p. m .- The mob having fired several blocks in the 8th Ward, are now moving up town with cannon. There are rumors abroad that they are agoing to attack the Times and Courier office. The returns received indicate the success of the K. N's., throughout the State.

Ten o'clock, p. m .- The mob is now front of the Times office, but its violent demonstrations have been somewhat subdued by speeches from Prentice and Purcell of the Journal. The ares are subduing.

Second Disparch.-Louisville, Aug 7. -The mob finally dispersed last night, after some riclent demonstrations in front of the Times office, burning the signs, &c About twenty persons were killed and many more wounded, and twelve buildings were burnt. The first shot fired, it is said was by forelguers at some distance from the polls.

THIRD DISPATCH .- The accounts from the scene of the riot are terrible. Parts of human bodies are seen among the charred ruins of the burnt buildings. A large crowd is now collected around the Court House, where many of the dend bodies are

JOURNEYMAN PRINTERS .-- From high to low they are the same careless, well informed, good hearted men-knowing how to act better than they do. Nothing at times, yet everything it occasion requires it. We have seen one and the same individual of the craft a minister in California. a boatman in the western canal, a lawyer in Missouri, a sheriff in Ohio, a sailing master on board a privateer, an auctioneer in New York, a pressman in a garret print. ing office.

One thing is very ovident, every person that chooses, can't be a printer. Brains are necessary .- [Exchange.

NOT MUCH OF A BELL .- A correspondent of the Boston Post, describing a visit to St. Paul's Church, London, says :

I was amused the other day at the " sang froid " of a Yankee who went with us to the top of St. Paul's, which you perhaps know is rather expensive sight seeing, and that the last fee exacted by the guard was for showing us into the belfry, where he evidently expected his Yankee visitors would be astonished at the size of the immense bell ; but our Yankee companion, after surveying it for a few moments, and thinking of the last sixpence, probably, very coelly remarked " Pools! we have bigger dinner bulls in America than that," The Cockney was dumb on the subject of bells after that,

Auful Noisy .- What under the sun is more concentrative, and at the same time more diffusive in its acoustic powers, than a load of bar iron, going over a rough stone payement. It embraces within its vibrations the sound created by seventeen dread ful railroad collisions, nine Mississippi steamboat explosions, a thousand watchman's rattles, two hombardments of Sebastopol and the final " crack of doom.
